

Commit to the future...

UNIVERSITY OF TETOVA

Dear high school graduates, Respected friends of the University of Tetova,

The University of Tetova, as a higher-education institution, has a rich history even though it has been operating in the field of science and education for nearly three decades. Our commitment to offer and provide qualitative higher education and help students in the development of academic, intellectual, and professional skills is the daily motivation of our qualified staff.

We give special importance to the education of students in a friendly environment, by being dedicated to improving our educational infrastructure, as it is important for us to create the most optimal conditions to help students focus on consolidating knowledge, developing skills, and building their professional career.

The diversity of study programs is a key element that distinguishes us as a university not only in North Macedonia but also in the region. With thirteen faculties and 197 study programs in total; 91 programs in the first cycle of studies and 106 programs in the second cycle of studies, we offer students opportunities to choose the study program that best fits their interest and future goals.

The wide range of study programs include various fields such as social sciences, medical sciences, natural sciences, computer sciences, environmental sciences, engineering, educational sciences, technical sciences, humanities, etc. The programs that our university offers are oriented towards meeting the requirements of today's local and international market.

During the preparations of study programs, we have given special consideration to the interaction between different fields of study, by being up-to-date with the latest scientific achievements, to give teaching a more dynamic and contemporary character.

As a multidisciplinary university, the University of Tetova has great potential to make innovative discoveries and promote their application, by giving stimulation to the scientific research activity of teachers and students. In addition to study programs, our university also offers other services such as professional training, academic and professional consulting, career orientation services, without neglecting cultural and sports activities.

We have given special emphasis to inter-university cooperation with Albanian universities, universities from the region and international ones.

We continue to intensify inter-institutional relations to encourage development in the fields of education and scientific research and to offer students additional opportunities to develop new knowledge and skills from the experience and cooperation with other students and professors alongside our well-qualified staff.

I invite you to join us on your higher-education journey, to become part of our community and to take advantage of all the opportunities the University of Tetova has to offer.

We are looking forward to welcoming You!

h

Prof. Dr. Kushtrim Ahmeti
Rector of the University of Tetova

Erasmus + is a program for education, training, youth and sport funded by the European Union through the European Commission.

The University of

Tetova has acquired the Charter (license) for Erasmus + in March 2013 and so far has signed student, academic and administrative staff mobility agreements with 78 universities from 13 different European countries..

Benefits from the Erasmus + program:

- A unique study or teaching experience in Europe.
- Close acquaintance with Europe and European higher education.
- Language skills improvement.
- Exchange of knowledge, ideas and contacts.

Student mobility criteria:

- To be student of the second year and above.
- To speak English or the language of host university.
- To submit the application for mobility and documentation within the specified time limit.

Duration of student mobility:

- For studies: 3 - 12 months (1 or 2 semesters).
- For practical work: 2 - 12 months.

Criteria for academic and administrative staff mobility:

- To speak English or the language of host university.
- To submit the application for mobility and documentation within the specified time limit.

Duration of the academic and administrative staff mobility:

- For teaching: 2-5 days (8 lecture hours).
- For training: 2-5 days.

"If in the future you'd like to recall beautiful things from the time you were a student, the best experience you can give yourself is participating in Erasmus + for a study program."

"Studying and living abroad is a great leap forward. Getting out of the comfort zone is not always easy, but it contributes to enhancing your personal and professional capabilities. The hardest part is making the decision, but we can guarantee you that you won't be disappointed."

"I would appeal to all students to not miss such an opportunity because it is a life changing experience"

"I honestly think it is a wonderful experience that one must live, as words aren't enough to describe it! I personally feel very privileged and lucky for the decision I made, although it hasn't been something I planned beforehand. Nonetheless, since the first day it turned out that it was the best decision I've made and entered the Erasmus family."
